Devil's Rock

The Devil's Rock is a large, dark, craggy rock formation located in the middle of the ocean, just off the coast of Sri Lanka. It is covered in lush green vegetation, including palm trees and various leafy plants. The ocean around the rock is filled with white-capped waves crashing against its base. In the background, a long stretch of coastline is visible, featuring a mix of dense green forests and several white, two-story buildings, likely a resort or hotel. A small sandy beach is nestled between the forest and the buildings. The sky above is a clear, pale blue, suggesting a bright, sunny day.
